HOW TO RUN THE WEBSITE

Every change to the Moto Market website is made in the admin area, called the Control Room. This page shows each everyday job as a few short steps. You don't need any technical knowledge.

CHANGE YOUR OWN PASSWORD EVERYONE

1. Click **Store settings**.
2. Under **Your sign-in**, type a new password of at least 14 characters.
3. Click **Change my password**.

> A short sentence makes a strong password that's easy to remember, for example **red-bike-kushtia-oil-2026**.

If something looks wrong: don't publish. Close the edit, reload the page and try again. If you saved a mistake, use **Undo a mistake**.

If the Control Room won't load: the database may have gone to sleep after a quiet week. Ask the person who manages the website to wake it up.
